BrassRing ATS April'23 Release

BrassRing ATS new features for release 23.04.04 are listed here.

BrassRing ATS Client Reminders

The Client Reminders section reminds clients of recently distributed important notices and links to comprehensive documentation and training for the special features recently introduced.

BrassRing ATS Dark Launch Features

Dark Launch features are those features that are released to the Staging environment only and are NOT released to the Production environment for a considerable amount of time.

This process gives an opportunity and enough time to test these features thoroughly before they are available in the production environment. Clients are requested to configure and test these features and provide their feedback and inputs to your respective Signal Labs representatives.

There are no Dark Launch features during the current release.

BrassRing ATS Visible Changes

The BrassRing ATS visible changes for the current release are listed here.

Talent Gateways - Google Sign-In Upgrade

As per the latest update from Google, the existing Google Sign-in JavaScript library is set to deprecate on March 31st, 2023.

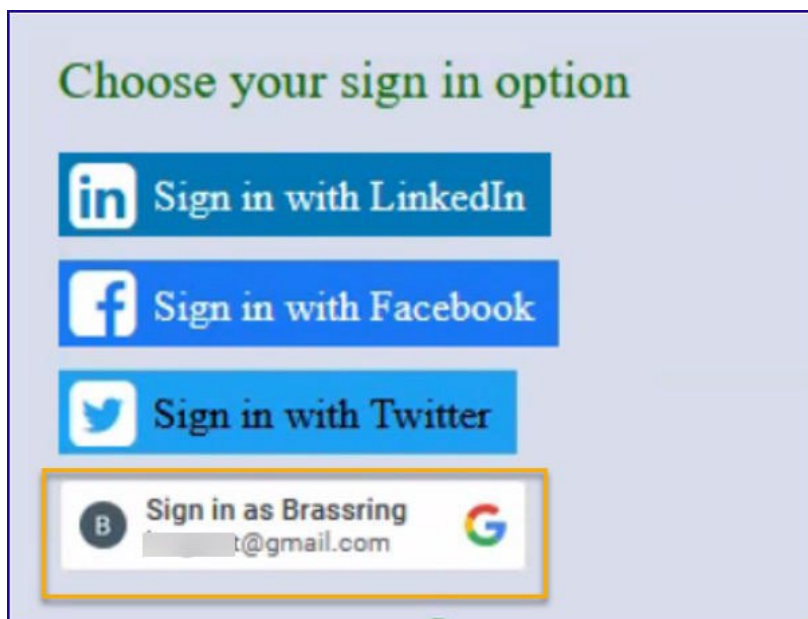

From 1st April 2023, if the user is logged in with a Google account, the sign-in button prompts as that user's account. Otherwise, it displays as "Sign-in with Google".

These changes are visible in three areas on the Talent Gateways:

- i) Talent Gateway landing page
 - ii) Talent Gateway launch screen - Navigation Menu
 - iii) Talent Gateway Launch Screen - Sign-up using a social account
- Signing with a Google account

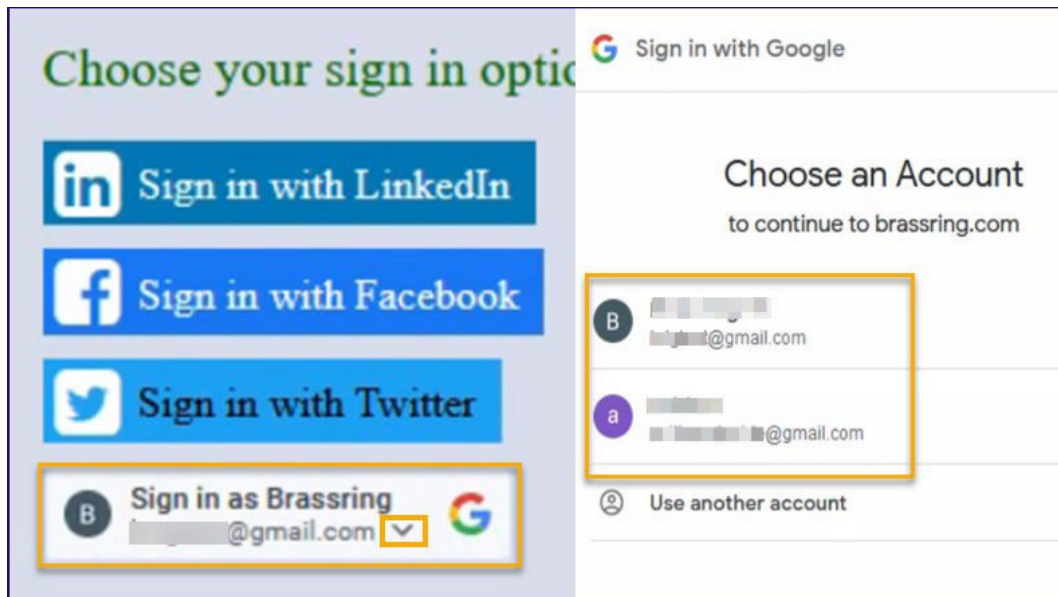

Signing with a Google account on the same browser

Signing with multiple Google accounts on the same browser

When the user has multiple Google accounts the drop-down option is displayed on the button.
