Platform Integration Request ⅋

Thank you for your interest in integrating with Trove! We look forward to partnering with you to streamline your rostering experience.

Integrating platforms requires a combination of information sharing and manual work. By completing the form below, you will be providing information that will help us best prepare to set up your integration. Please provide as much information as you have available. Once we receive your completed form, we will reach out to you directly. We may also need to set up a time to meet and establish your integration. Depending on your platform, establishing an integration can require some time investment on both sides, but we are committed to helping in every way we can!

Just a reminder that an Annual School Site License for Teachers does need to be purchased prior to initiating an integration. In addition, only students who will using digital products need to be rostered in Trove.

If you have any questions, please don't hesitate to reach out to us at TroveSupport@bjupress.com.
